

QUARTERLY ISSUES AND PROGRAMS REPORT
FOR
STATION KLLC-HD3

2nd Quarter 2016
(April 1st through June 30th)

*** KLLC-HD3 commenced its broadcast as of 6/6/2016**

Prepared by Patricia Kenny
Paralegal

**Issues of Concern to San Francisco
Addressed in Responsive Programming in the
2nd Quarter 2016**

- | | |
|-----------------------------|---|
| 1. Energy | Increasing the amount of wind power being produced in Iowa. Using moldy bread as a power source and how something we normally throw away became a possible battery break through. |
| 2. Environment | Organizing and helping make Earth Day an international celebration. Creating a method to recycle old clothes into new clothes and the economics of recycling. |
| 3. Sustainability | Bringing together leaders from across the globe to discuss sustainable solutions. |
| 4. Sustainable Environments | Building and designing ultra-efficient and healthy environments. How to determine a community's STAR rating and set targets for the future. |
| 5. Transportation | An update on the state of high speed railroads in the US. |

**KLLC-FM HD3 Programs That Address Community Issues
(Regularly Scheduled Public Affairs Programs)
2nd Quarter 2016**

<u>Public Affairs Program</u>	<u>Schedule and Description</u>
1. GREENSENSE WITH ROBERT COLANGELO	Sundays, 6:30 a.m.-7:00 a.m. Robert Colangelo is the host of the nationally syndicated Green Sense Radio show. Recorded live on the Farm, Green Sense Radio features entrepreneurs, innovators, academics, and policy makers who are making the world a better place.

**Most Significant Issue-Responsive Programming
2nd Quarter 2016
(March 1 through June 30)**

ISSUES: Sustainable Environments
Energy

GREENSENSE WITH ROBERT COLANGELO
Biophillic Design/Wind Power in Iowa
June 12, 2016
6:30am
28 minutes of a 28 minute program

Homes and buildings designed by Tom Bassett-Dilley are meant to affect positive change by creating beautiful, ultra-efficient, and healthy environments. His use of passive home concepts and biophillic design are what helps make that happen.

Iowa is the #1 state when it comes to producing wind energy, per capita with 31 percent of its energy coming from wind. MidAmerican Energy recently made a big announcement that could bring that number closer to 40 percent. We're joined by Adam Jablonski, Project Manager for Renewable Energy Development with MidAmerican Energy.

ISSUES: Environment
Sustainable Environments

GREENSENSE WITH ROBERT COLANGELO
EVRNU Textile Recycling/STAR Communities
June 19, 2016
6:30am
28 minutes of a 28 minute program

In the U.S. alone, 14.3 million tons of textile waste was created last year. About 2.3 million tons of it was recycled. That leaves quite a bit of waste, not to mention the energy, water and other resources needed to create new textiles. EVRNU is a way to recycle old clothes into new and could revolutionize the industry. We're joined by Stacy Flynn, Founder & CEO of EVRNU.

The people and governments want to make their home towns more sustainable. The trick is how do you know where you are along that scale and where are you heading? The Sustainable Tools for Assessing & Rating Communities or STAR system is used to look at a town's sustainability, set targets for the future and measure. To tell us more is STAR communities Executive Director Hilari Varnador.

ISSUES: Transportation
 Energy

GREENSENSE WITH ROBERT COLANGELO
High-Speed Rail Update/Battery Innovations from Bread Mold
June 26, 2016
6:30am
28 minutes of a 28 minute program

We've delved into the topic of high speed rail on Green Sense before. But, it seems little has happened in the U.S. since we last talked about it, which is a story unto itself. With some countries celebrating decades of high-speed rail, our trains are stuck in the past. To give us more of the story, we're joined by Bill Vanuono, Editor in Chief for Railway Age.

Moldy bread could one day be used to power your phone, your tablet, maybe even your car. How did something that we'd normally throw out become the key to a possible battery breakthrough? Dr. Geoffrey Gadd heads the Geomicrobiology Department at the University of Dundee in Scotland and tells us more.

**Public Service Announcements
2nd Quarter 2016
(April 1 through June 30)**

The Radio Disney Network broadcast public service announcements (“PSA’s”) thirty seconds in length on a variety of topics relating to children and young adults in the Second Quarter of 2016. These PSAs are provided by the Ad Council, a private, national non-profit organization that marshals talent from the advertising and communications industries, the facilities of the media, and the resources of the business and non-profit communities to produce, distribute and promote public service campaigns on behalf of non-profit organizations and government agencies in issue areas such as improving the quality of life for children, preventative health, education, community well-being, environmental preservation, and strengthening families. This quarter, the Radio Disney broadcast 253 PSAs in a variety of day parts as follows:

SERIES TITLE: PSA
PROGRAM TITLE: “Take Care People”
PROGRAM LENGTH: 30 seconds
DATE AIRED: 04/02/16 – 06/30/16
TIME AIRED: various times (87 total)
FORMAT: recorded
DESCRIPTION: Raised Awareness for the getcoveredamerica.org campaign to inform the public about affordable health insurance and encourage people to enroll to help cover costs associated with prescriptions, hospitalizations, and preventive care.

SERIES TITLE: PSA
PROGRAM TITLE: “Light Show”
PROGRAM LENGTH: 30 seconds
DATE AIRED: 04/01/16 – 06/30/16
TIME AIRED: various times (82 total)
FORMAT: recorded
DESCRIPTION: Raised Awareness for the discovertheforest.org campaign that aims to inspire tweens (aged 8-12) and their parents to re-connect with nature, experiencing it first-hand. The campaign brings to life the joy and excitement kids have when they discover the wonders of nature, helping create interest in their environment and a lifelong relationship with it.

SERIES TITLE: PSA
PROGRAM TITLE: “Charles”
PROGRAM LENGTH: 30 seconds
DATE AIRED: 04/03/16 – 06/30/16
TIME AIRED: various times (84 total)
FORMAT: recorded

DESCRIPTION:

Raised Awareness for the United Negro College Fund's (UNCF) "Better Futures" campaign that encourages the public to donate to help ensure all deserving students can go to college with help from the UNCF.
